

HAWKEYE BUILDING FOR THE FUTURE...

Welcome to our first attempt to bring you up to date with what is happening from Hawkeye Gold's perspective in the petroleum industry. Here is what is happening today...

- Our Iowa Falls and Fairbank plants are running at full capacity. Both are shipping multiple unit trains each month.
- The Menlo and Shell Rock, Iowa construction progress is ahead of schedule and will be fully operational early 4th Quarter, 2008.
- Terminal expansion progressing with KM Argo, IL and Logi-Bio, Albany, NY operating today. Four additional unit train sites in the next 30 days.
- We executed an agreement with the Manly Terminal LLC here in Iowa to improve delivery flexibility and efficiency.
- Completed DDG marketing agreements with Golden Grain Energy, LLC and Lincolnway Energy, LLC.
- Corporate commitment to Iowa State University supporting the Sloan Center for bio-products and the Harvest, Store, and Transportation cellulose research project.
